a Misses: attention is in place (L7)
b Residual-stream probe, N = 2 (L8)
c Residual-stream probe, N = 3 (L8)
share of misses (median model)
AUC / share of items
N
relative depth (0 = input, 1 = last layer)
model's own answer, AUC 0.63
model's own answer, AUC 0.58
attended, head output wrong
attended, lost downstream
attention elsewhere
probe: match vs lure (AUC)
model's lure false alarms the probe calls lures
